Auction Rules
(Applicable to the Special Monthly Sales of Suckler Cows)

1. Calving dates given as a result of Pregnancy Diagnosis (PD'ing) by a Vet are for **guidance only** and do not convey any guarantee with respect to the future date of calving. Purchasers must allow a 2 month tolerance either before or after the date given before any claim for keep may arise, in accordance with paragraph 4 below.

2. When an animal is stated to have been served not less than twelve weeks prior to the sale proves to be not in calf and a Veterinary Surgeon's Certificate to that effect is produced **within 43 days of the sale date,** the animal shall, at the Purchaser's option (a) be returned carriage paid by the Vendor and the full purchase money and keep costs in accordance with the rates in Paragraph 3 refunded; or (b) be retained by the Purchaser and a sum shall be fixed by the Auctioneers and paid by the Vendor to the Purchaser forthwith in full compensation for any loss sustained.

3. Following AI service where an animal is in calf but does not calve until after 21 days of the due date, compensation at the rate of £7 per week up to the date of calving shall be paid by the Vendor to the Purchaser. Where claims become effective during the months of October to April (inclusive) compensation is increased to £10.50 per week. Such compensation shall be assessed from the due date of 41 weeks from the date of AI service, but shall in no case extend beyond twelve weeks. (No claim will be effective under this Rule unless made to the Auctioneers within **one month after the due date.**)

4. Following natural service where an animal has been PD'd in calf but does not calve until at least two months after the due date, compensation at the above rates will be paid by the Vendor to the Purchaser at the rates detailed in 3 above, calculated from two months after the calving date given.

5. Where an animal is described as "running with the bull", no warranty as to the animal being in calf at the time of sale is given.

6. All bulls 14 months and over at the date of Sale shall be warranted as capable of getting stock, all claims to be within **4 months of the day of sale.**

7. With respect to stock bulls if the Purchaser proves a breach of warranty then the Purchaser may return the bull to the Vendor who shall, at the Purchaser's option, either replace the bull with another bull of equal value which is capable of and effective at natural service, or refund the purchase price, together with such other costs and charges as the Purchaser may be entitled to under these Conditions. Notice of a claim must be supported by a veterinary surgeon's certificate confirming that:-

   (a) The bull's incapacity and ineffectiveness is not the result of injury, accident or illness happening after the time of the sale; and
   (b) The Purchaser's breeding stock are not responsible for the bull's incapacity or ineffectiveness.

   These Conditions give the Purchaser no right to claim damages for consequential losses from the Vendor in lieu of exercising such right of refusal or return.

   Purchasers are advised to note service dates and watch for cows or heifers returning to highlight any fertility issues at the earliest opportunity.

Following Purchase the National Beef Association would require a Purchaser to adhere to the following points to fulfil the requirement of Good Husbandry and Management:

(1) The bull should not be used within two weeks of the date or purchase
(2) The purchaser should ensure that the bull is in normal breeding condition before use
(3) The consultation with the vendor, the purchaser should maintain the bull on its current diet and only introduce any new feed gradually
(4) When the bull is first used, try it with 1 or 2 smaller females first, in a yard on a non-slip surface, so he is introduced to service gradually and safely. Observe him closely to ensure that he is serving the female properly.
(5) Once the purchaser is satisfied that these females are not returning, then he should put the bull out with more females. 20 to 25 females should be a maximum in the first year.

8. Heifers sold as not in calf shall be so guaranteed. Any claim to the contrary should be made within **6 months and 5 days** of the date of Sale and no later. Once a heifer commences calving the warranty expires regardless of how long after the sale such calving commences.

GENERAL NOTES

VIEWING
The sale animals can be inspected prior to the sale by appointment with the Vendors.

DIRECTIONS:
The sale will be held at Sedgemoor Auction Centre, North Petherton, Bridgwater, Somerset TA6 6DF.
FROM M5 JUNCTION 24: (Travelling North) Take the first exit off of the roundabout, *keep in the left hand lane and take the first exit off the next roundabout onto the A38 and the market entrance is located on the left hand side at the traffic lights. Continue along estate road to a statue of a bull. The market car park is found immediately beyond.
FROM M5 JUNCTION 24: (Travelling South) Take the third exit and proceed as above *

REFRESHMENTS:
Available from our market restaurant Food at Junction 24.

ACCOMMODATION:

- Lower Farm, Thornfalcon, Taunton TA3 5NR (M5, J24)
  Tel: 01823 443549 Mr & Mrs John Titman
- Blackmore Farm, Blackmore Lane, Cannington, Bridgwater TA5 2NE
  Tel: 01278 653442 Mrs Ann Dyer
- Brookhayes Farm, Bell Lane, Cossington, Bridgwater TA7 8LR
  Tel: 01278 722559 Mrs Bell
- Walnut Tree Hotel, 87 Fore Street, North Petherton (M5, J24)
  Tel: 01278 662255

  www.farthingshotel.co.uk
- Travelodge, Huntworth, Bridgwater TA6 6TS (M5, J24)
  Tel: 0871 984 6243

CONDITIONS OF SALE:
Unless stated otherwise in the catalogue, all cattle are sold under the LAA Conditions of Sale, which are displayed outside the market office reception.

FACILITIES:
On your arrival at the market, please book in your stock with the clerk and pass over your passports. Pens will be individually labelled. Greenslade Taylor Hunt will provide straw (the use of shavings is not permissible). Washing facilities are available with electric points for Vendors use.

METHOD OF SALE:
All cattle must be paid for on the day and no stock may leave the market without a 'Pass Out' which is only obtainable from the market office.

PAYMENT:
All lots are to be paid for on the day of sale and within one hour of the end of the sale. Cheques will not be accepted from Purchasers unknown to the Auctioneers unless prior arrangements have been made. Prospective buyers wishing to pay by cheque must be prepared to produce a Bankers Reference or two forms of identity i.e. utility bill, drivers licence, passport or bank
Statement and provide details of their local auctioneer, from whom a financial reference maybe obtained.
Card payments are accepted, subject to a 2% premium on credit cards. Debit cards will not attract any additional premium.

BUYERS NUMBERS:

Are available from the market office. In order to set up an account with Greenslade Taylor Hunt you must produce two forms of identification by means of any of the following: drivers licence, recent utility bill from within the last 6 months or your passport or shot gun/firearms licence.

INTRODUCTION

The herd was established in 1981 by my Mum and Dad and has been primarily bred to produce commercial bulls. Tops rather than height has been the objective, whilst trying to maintain easy calving. The most expensive meat is found upon where the sun shines and daylight doesn't weigh were two of Dad's mantras.

The Pinky G's and Eulina lines both originate from Lady Gledyne's Hurdcott herd. The Pinky line produced a Royal Show senior yearling bull class winner in 1995, Woodington Proud Gladiator, who sold to Genus. Also Woodington Proud Gloman, by Swan'song, who was sold to Cogent. The Beauties originate from Aynho and the Paulas from Wingfield Park.

Notable bulls used include My Swan'song of Drumlister, out Bob Campbell's show cow, who himself won first prize at the Royal as a two year old in 1998. Sunset Acres Bang and Gerester of Haymount were used by AI, with Gerester producing the 1999 Royal Show Male and Reserve Breed Champion, Woodington Proud Gerester, again from the Pinky line. The females from Sunset Acres Bang are some of my favourites. Lockerley Top Gun was out of the show cow Lockerley Top Girl and left tremendous width. The Dark Lane bulls have given stretch and easy calving. Oakchurch Darkley was the first AI calf by Te Mania Berkley in the country and had a tremendous top and is now standing at the Watton Herd.

Currently Keirsbeath Phenomenal, who was a class winner and Reserve Junior Champion at Stirling in February 2017, has his first crop at foot and has run with all this Spring. By Duncanziemere Edwin he is a bull who will do someone a lot of good. Exceptional easy calving and eye muscle figures being his main strengths. He had the deepest loin to touch of any at the time of purchase. He has a classic head and beautiful temperament. A real gentleman and is a pleasure to be with.

Current AI Sires offer yearling heifers by Gretnahouse Blacksmith, Rawburn Fastball and Wall Royal Leo. Embryo calves at foot are Rawburn Fast Ball x Rawburn Ellen Erica (Top 1% TSI and SRI) Remitall Rachis 21R x Hoff Idlwyd SC 534 300 and Bakkens Red Advantage x Bakkens Red Dallas. Some exciting prospects.

To preserve the prefix and as Alex is now at Cannington College studying Agriculture, one yearling heifer, one two year old heifer and two younger cows have been retained. One cow is not fit to travel and the other has a red calf. My favourite and our best cows are however in the sale.

It is with much sadness that the herd is being sold. Our grateful thanks to Matt and Vicky Smith and Jess for all their hard work and help over the last three years. We wish all purchasers well. If any were to appear at future shows we would be delighted. We would like to also thank the many bull and heifer purchasers over the last 30 plus years for their very kind business.

Best Of Luck
Rob

HERD HEALTH

Johnes – Risk Level 1

Lepto – Whole herd tested clear in 2013. Vaccination program to protect since. Last vaccinated 3rd July 2017 with Spriovac.

BVD – All 2017 calves tissue tested clear. All bar one untested calf tissue tested clear in 2018. Calf 598 died at 2 days old and was sent to kennels before a tissue sample was collected. Although this has prevented us gaining BVD free status, we have no reason to suspect BVD is present in the herd. The herd was last vaccinated to protect on 21st March 2017.

IBR – Cows 298, 306, 317, 372, 378, 402, 403 and 411 were exposed to IBR in the past and are latent carriers. The herd is annually vaccinated to suppress the virus and since 2013 no wild virus has been found on testing the herd and on surveillance tests. Herd last vaccinated on 8th June 2017 with Bovillis IBR marker live.

TB – Pre movement test 5th June 2018 (Whole herd bar 6 yearling bulls) Last herd test November 2017. Last reactor November 2013. Mineral fed off ground in raised troughs with anti-badger rollers. Land understocked to avoid tight grazing. Farm participating in cull area. No wildlife on holding. No maize grown or grown by neighbours.

Although time has not allowed us to obtain Checs certified free status for all diseases, we are confident no IBR, BVD or Lepto is circulating in the herd. We have achieved Johnes risk level 1.

SERVICE DETAILS

All cows and bulling heifers ran with Keirsbeath Phenomenal from 20th April. Phenomenal was put in with the bulling and embryo heifers in mid-March during the snow because his pen was covered by a drift. S19 and S47 were seen to be bulled.

Comments: Embryo calf at foot. Idlwyld is from one of the best female lines in North America. She is by the Sire of Hoff Limited Edition (Charger) and out of the Dam of Hoff Head Class (Two of the most influential bulls in the breed). She is a female with great mass and presence with very easy calving. Idlwyld has the breeding and quality to breed the very best. Rachis 21R has all the attributes of a topsire. Rachis is a big, muscular bull that has one of the best show records in North America (2007 Edmonton Farmfair Grand Champion and Supreme Interbreed Champion). His performance figures are some of the most impressive in the world and should give calves that look and perform at the highest level and calve easily. These are some of the very first embryos in the Country by this bull and combined with the power and quality of Ildwyld, the results will be outstanding.
