

Breeding for feed efficiency in your pedigree herd

Ingliston Farm, Eassie, Forfar, DD8 1SP
Courtesy of Alec Mitchell

Monday 4th December 2017, 10.45 - 14:30

Join the Beef Feed Efficiency Programme team for this event to better understand how your breed can benefit from breeding for feed efficiency. Speakers will explain how the programme is currently working to collect sufficient records to generate breeding values for one breed. Soon the feed recording facilities will be available to other breed societies and breeders who wish to generate breeding values for their own breed.

Programme:

10.45	Registration	
11.00	Visit to feed efficiency recording farm Hosted by Alec Mitchell, Ingliston Farm, Eassie, Forfar, DD8 1SP	Natalie Cormack, Programme Manager & Alec Mitchell, Recording Farmer
